***Reasons for Allowance***

1. Claims 4-8, 12, 13, 15, 16, and 20 are allowed. The following is an examiner's statement of reasons for allowance: Applicant amended claims 5 and 13 to incorporate what was previously indicated as allowable subject matter of allowed claims 4 and 12. In particular, the prior art of record does not teach or fairly suggest having smaller increments near both the minimum and maximum settings and larger settings at the midpoint between the maximum and minimum settings in combination with the other recited elements of the claimed timer. With regard to new claim 20 the examiner finds that the patentable feature is the value of the duty cycle dial decreasing exponentially from the maximum duty cycle setting to the minimum affording greater resolution near the maximum setting in combination with the additional recited elements of the claim. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
